

Free Start-Up and Additional One Year Warranty on any Groen Purchase

We believe strongly in the products we build—and we back them with one of the best warranties in the industry. Plus, Groen's free start-up program ensures your unit is professionally inspected by an **Authorized Service Agent (ASA)**—for free!

When requested within 30 days of installation, receive an **ADDITIONAL ONE YEAR WARRANTY** beyond the standard factory warranty. On any Groen steamer, during the installation, an ASA will also gather water samples and submit for testing. Upon test results, if the recommended Groen water treatment system is purchased, installed and maintained, water-related issues will also be covered under the extended warranty.

Make the most of your warranty—call 888-994-7636, click here, or scan the QR code to schedule your free Groen start-up now!
